OPEN TEXT FAX SERVER CONNECTOR FOR XEROX EIP MFP IS NOW AVAILABLE

Fax Server Connector for Xerox EIP MFP delivers exceptional value by:

- Reducing total cost of ownership through resource consolidation
- Eliminates multiple stand-alone fax machines, modems, phone lines and supplies
- Eliminates fax kits and middleware applications (i.e. GlobalScan, eCopy, AutoStore, ScanFlowStore, etc.) for faxing

The Open Text Fax and Document Distribution Group are pleased to announce the immediate release of **Open Text Fax Server Connector for Xerox EIP MFP**.

This provides a direct connection to Open Text Fax Server, RightFax Edition from an Extensible Interface Platform (EIP) enabled Multifunction Printer (MFP) allowing you to:

- Easily fax or e-mail your paper documents using an MFP
- Save money by reducing the number of phone lines and MFP fax kits you need
- Capture all fax communications to meet regulatory compliance and security requirements

- Allows users to scan, fax, print and copy on one consolidated MFP

Improving security and compliance:

- Provides tamper-resistant document delivery
- Logs fax documents for auditing

Optimizing IT infrastructure investments:

- Integrates with EIP Enabled MFPs
- Integrates with email, document management, ERP, and workflow
- Creates a more efficient, connected work environment
- Simplifies fax management

Call DSGI for more information and learn how this connector can benefit your organization.

Do you need an efficient, reliable way to share faxes with your Imaging/CRM/ERP/Workflow System?

OF COURSE YOU DO!

DSGI developed Fax Export to join RightFax in creating an extremely flexible solution that:

- Exports faxes to TIF and stores metadata in any chosen format (Standard CSV, Tab or custom delimiter)
- Exports to a single data file for all faxes or a separate data file for each fax
- Much more

Plus, we can add features to make it work exactly the way your customer wants it to. All details are at www.dsgi.net.

We've integrated this proven application with:

- Onbase
- AWD
- Datacap Taskmaster
- WMSJ Workflow
- Other Workflow/BPM applications

THERE HAS NEVER BEEN A BETTER TIME TO GIVE BACK!

The Dynamic Solutions Team volunteered at Feed My Starving Children in Eagan, Minnesota on October 20. We hand-packed meals specially formulated to feed starving children in third-world countries. Feed My Starving Children has been providing meals to disadvantaged kids since 1987. In 2008 alone, volunteers packaged over 70 million

meals! Each bag contains enough food (a mix of rice, soy, chicken, dehydrated vegetables, vitamins and minerals) to make six meals. Once the food packages reach their intended recipients, they simply add boiling water and cook. We loaded boxes upon boxes for shipping; we packaged 14,688 meals to feed 40 children for an entire year! What a wonderful way to experience how doing so little can make a huge impact on people's lives!
